Experience

Pump, Founding Product Design Lead * 6/2025 - Present

- Led design from 0 to 1 across cloud optimization, cost reporting, and onboarding as the company's first and sole product designer, translating complex infrastructure data into clear workflows and data visualizations
- Built reusable design system components in Figma and React, shipping production code to accelerate implementation and improve UI quality
- Partnered with sales, operations, and customers to identify product gaps, shape requirements, and prioritize new features

Mimic, Founding Product Designer * 12/2023 - 2/2025

- One of two founding designers at a cybersecurity startup, which grew from \$27M to \$70M+ in funding
- Established design system and brand identity from scratch while shipping MVP to secure U.S. government and Fortune 500 clients like REI
- Ensured WCAG compliance on the public-facing marketing website

Crayon, Senior UX Designer * 1/2022 - 4/2023

- Led platform-wide redesign of the navigation, onboarding, and integrations
- Partnered with product, sales, and customer success to discover user needs
- Collaborated with engineers to create company's first component library

projekt202, Experience Designer * 8/2018 - 12/2021

- Consulted on eight enterprise engagements across customer service, tax, healthcare, and pharmaceutical distribution
- Created the company's first standardized WCAG audit framework, expanding the firm's paid accessibility engagements

Sabre Labs, R&D UX Designer * 7/2016 - 8/2018

- Created interactive prototypes to explore applications of emerging technology in the travel space with a small innovations lab
- Published industry-first chatbot guidelines with 100K+ views and 2K+ likes

Education

Dartmouth College * 2012 - 2016

- B.A. in Studio Art with a concentration in painting
- Minors in Computer Science and Digital Art
